screased Appropriation for Public Sc

Experi-Electoral Boards.

The following is a statement of the amount of revenue assessed for the year 1884 due to public free schools, as requested by the act of March 6, 1882, compiled by the Auditor of Public Accounts for the Superintendent of Public Instruction:

Amount applicable to public schools from capitation, land, and personal-property tax, espitation, and, and personal-property tas, \$577,546.03; estimated amount from rail-roads, \$: 6,230.21; from steamboats, \$:32.70; telegraph companies, \$156.26—total, \$614, 261.20. This is \$18,000 more mosy than was appropriated during the previous year.

was appropriated during the previous year.

The Superintendent of Public Instruction will at once apportion the money as required by law.

Henry Talbott, of Northumberland, was received at the penitentiary yesterday for lour years upon a charge for telony.

Messrs. John B. Moon (chairman) and M. W. Hazlewood, of the special committee appointed to investigate the affairs of the Auditor's office, were in session a short time yesterday. They prepared a list of the questions for the clerks of courts in the State to answer, the previous blanks not answering the purposes intended. These questions fill thirteen pages of foolscap paper, and will be printed and sent to all the clerks in the Commonwealth.

The committee then adjourned until Thursday, baving sent a communication to the Auditor asking to have prepared and submitted a tabulated statement showing what clerks have paid, and the manner in which they have paid, from September 1, 1877, to September 1, 1881.

It will be the 1st of February before all these reports can be answered. The committee have had numerous recommendations as to experts to examine the books and accounts in the Auditor's office, but as yet no one has been engaged. This expert will have at least six months of work to accomplish before he can make a full report.

The Governor yesterday respited John

ovening to make preliminary arrangements for Mr. Moody's visit.

Dr. Minnigerode was called to the chair, and the meeting was opened with prayer by Dr. Hoge. Mr. H. M. Clarke was elected secretary, and was requested by the chairman to make some statement in regard to the arrangements that had been made with Mr. Moody. Mr. Clarke gave a brief account of the different peritions that had been sent, and called attention to the fact that Mr. Moody's visit was in response to the invitation of the pastors and Christian people of the city, and not at the instance of the Young Men's Christian Association, though the Association will cooperate in

of the Young Men's Christian Association, though the Association will cooperate in every way possible.

On motion of Dr. Hoge, a committee of pastor, representing each denomination, was appointed to meet and cooperate with Mr. Moody on his arrival. The committee was composed as follows: Dr. Minnigerode (chailman), Revs. Hoge, Hatcher, Bledsoe, Schieffer, Cave, and Grenshaw.

A committee, consisting of one member from each church, was appointed to make all necessary arrangements. The following are the gentlemen appointed:

NO GAS FOR THE CAPITOL.

Light Turned Off the State Buildings and

Capitol Square.

About 4 o'clock yesterday afternoon the city authorities turned the gas off the Capitol Square, the Capitol, and the Governor's house. The ten days' notice had expired, and no arrangements made for meeting the bills long past due, and hence the city ordinance was enforced.

At the recent session of the General Assembly the city's bill for gas consumed on the Capitol Square and in the State buildings was presented in the Senate. That body utterly refused to pay anything for the gas that had of late been used on the Square. They amended the bill, however, to provide for the payment of that used in the Capitol and in the Governor's House. The Senate then passed the bill in that shape and sent it to the House, where there was no final action taken on it.

and sent it to be House, where there was no final action taken on it.

The gas would-have been turned off ten days ago, but the Governor was absent, and it was resolved to wait until he returned and had time to look into the matter. He came back several days ago, but he and the city atthorties were, it seems, unable to make suitable arrangements for a continuation of the gas supply until the Legislature meets magain. meets again.

Choins and locks have been bought, and the gates of the Capitol Square will be locked upon the Richmond public at night.

A meeting of the Executive Committee of the Virginia Historical Society was held saturday night at its rooms in the Westmoreland Club-House. Present: Messrá. Henry (chairman), Ott, Valentine, Cabell, Palmer, and Brock (corresponding secretary). tary).

A number of gifts of books were reported: also, the interesting and important memorial of the late war indicated in the

The regular monthly meeting of the Baptist Sunday-School Association of Richmond and Manchester was held Sunday afternoon at the Grace-Street Baptist church. President William Ellyson presided; Robert A. Gary, secretary. The exercises were commenced with singing by the Grace-Street school. Rev. Percy G. Eisom, pastor of the Fulton church, offered prayer. Reports from the various schools were read, which show an average attendance for the month as follows:

Professor Charles H. Winston addressed the Association. His theme, which he called "Solomon's Soap-Bubbles," was based on the subject of Sunday morning's lesson, and in terms that were striking and effective, demonstrated the folly of seeking after things in which there was no real happiness; that Solomon tried this, and at last had to say, "Vanity of vanities, all is vanity."

Dr. C. C. Bitting, of Philadelphia, followed in some most fouching remarks of the appeals made to the society with which he was connected for the Bible, and urged upon Sunday-school workers to give a helping-hand in this direction; that his constant in this work, and so long as that heart was in this work, and so long as that was the case his hands would work for its

interest.

After the collection and benediction by Dr. Rice, the Association adjourned. The next meeting will be held at Venable-Street church the second Sunday afternoon in January. Methodist Sanday-School Society.

The regular monthly meeting of this Society was held at Park-Place church Sunday afternoon at 3:30 o'clock—C. H. Hasker presiding, and Charles P. Rady secretary.

the meeting was opened with singing by the school and prayer by Rev. W. P. Wright.

Wright.

Mr. J. Thompson Brown, superintendent of Park-Piace Sunday school, made a very interesting report of the school, which showed that they are doing good work, and that there is a deep religious feeling in the school.

that there is a deep religious reeining in the school.

Rev. W. E. Edwards, Rev. James C. Reed. Rev. Paul Whitehead, and Rev. W. P. Wright made interesting and profitable addresses.

The superintendents' reports for the past month, as far as sent in, show that all the schools are doing well.

The next meeting will be held at Manchester Methodist church the second Sunday in January.

Last night Gus Williams at the Theatre.

Last night Gus Williams appeared at the Theatre before a very good house in his new play, "Captain Mishler." The comedy is of the lighter sort, but was very enjoyable, and was well received by the house. Gus Williams is well known here, and has in nowise changed from the same laughter-proveking and ex-ellent comedian that he has always been. The support is very good also, some of the characters being excellently well-rendered—particularly Miss Gabriella McKean as "Miss Pillsoury, an Old Maid," George Bailey as "Mysterious Billy," and Matt. Holmes as "Cromwell Hallyday, a Colored Man," To-night, "One of the Finest." Gus Williams at the Theatre

No Poison Found.

Dr. W. H. Taylor, State Chemist, has recently finished an analysis of the stomach and intestines of Mrs. Susan Reid, of Loudoun, who died last May under circumstances pointing, as was supposed, to strychnine poisoning. Her husband was recently arrested, charged with murdering her by poison, and for the purpose of this examination the body was disinterred. The most careful examination possible disclosed no trace of poison of any sert. No Potson Found.

In the City Circuit Court yesterday the jury in the case of Gordon vs. The City, not having been able to agree, was discharged.

The day was consumed in further hearing the evidence in the libel suit of Lynch vs. Chaffin. Hussings Court.

Thomas Clarke (colored), charged with stealing one barrel of sugar from James D. Patton, was convicted and sentenced to five months in Jail.

The case of Emeline Shelton, charged with infanticide, will be tried Wednesday.
The case of Dr. James Joseph Augustus Edwards, charged with bigamy, is set for trial Thursday.

RICHMOND, VA., TUESDAY MORNING, DECEMBER 16, 1884. MANCHENTER MATTERN.

The December term of the Hustings Court opened vesterday. This is not a grand-jury term. There are no crimmal and but few civil cases to be disposed of. The Judge gave notice yesterday that he would adjourn the court to morrow. The Board of Commissioners selected under "act to provide for the assessment of real estate in this 5tate in the year 1885, and every fifth year thereafter, approved November 27, 1884," will meet in the office of the judge of the Hustings Court on Wednesday, at 12 o'clock M., for the purpose of appointing "a proper person to

pose of appointing "a proper person to assess the cash value of all hinds and lots, together with the improvements thereon, within the corporate limits of the city of Manchester."

There are now pending before the Council Committe on Light several propositions from corporations for lighting the streets of this city. This is one respect in which Manchester is very much behind other cities of its size; and it is a subject which should be carnestly considered by the Council, and, if possible, some arrangement should be made for lighting the city. During the meeting at the Baptist church there have been about eight conversions. The meetings will continue all this week. Sunday night the ordinance of baptism was administered after preaching.

The attendance at the morning services at the city churches Sunday was very large, but the heavy rain at night prevented many from turning out.

The recent beavy rains have had the effect of swelling the river right much. It is now higher and muddier than it has been for many months.

Matters in police circles this month have been unusually dull. There are one or more cases of misdemeanor to be disposed of in the Mayor's Court this morning.

The messenger repeated inside of eight hours, but his friend laughed at him and said that he would be sent to Sing Sing sure if he went back and surrendered the money. His only hope was to keep the money and live in Cauada, where he could not be touched. His conscience troubled him a good deal during his exile. He suggested to his friend about five weeks ago that he go on to New York and negotiate with the bank for a compaomise. He was given \$12,000 for that purpose, \$8,000 being in new bills, the numbers of which had been sent to every bonking institution in this country and Canada by the bank, and he immediately started for New York.

Dogs as Newspaper Carriers.
[Bariford (Conn.) Times.]

A very common thing on all the Connecticut railroad lines is for accommodating train men to throw newspapers off the trains at or near the houses of subscribers living on the line of the road at a distance from the stations. In many instances dogs have been trained to watch for the ears and the these papers, and country dogs, it is noticed, take quite an active interest in the adair. Over on the Naugatuck road some one has had the euriosity to inquire into this matter of dogmessengers. Mr. Philip McLean, proprietor of the Gate House, on the Thomaston road, has a dog who goes a mile and a half every morning to meet the train. The paper was formerly thrown off by the brakeman on the last car, and there the dog watched for it. Lately it has been thrown from the baggage-car. The dog appeared anary at the change, barked furiously, and waited sullenly for some time before going on his errand. He has not yet become reconciled in the new way of delivering his paper. Below Derby a dog has acted for several years as newsboy for a number of funifies. The papers are thrown out of the cars under full speed. Whether one or a large bundle of them the dog is able to lug them off, making good time back. Another dog, who has become a veteran as newsboy, and cannot now, from age and rheumatim, get down to the cars, has in some way managed to train a younger dog to do his work. Edward Osborne, residing below Naugatuck, has a dog who regularly meets the early morning train. The house is mile away from the railroad, and the dog never leaves on his errand until he hears the train whistle at Bencon-Fails station. Then he starts on a run and waits at the same spot always, with his nose poked between the palings of a fence and his keen eyes watching for the flying paper. A story is told of one dog that was first taught to bring a certain New Haven paper, and when his master changed to another, could not be induced to carry the new one.
